

Voweletics™ - Highly Effective and Completely Engaging

All Voweletics™ instruction is designed for short learning segments followed by a variety of activities. This fun, interactive format completely engages the student and promotes accelerated learning. Voweletics™ not only provides essential phonetic reading skills, but also creates an atmosphere where students are eager to learn. The process is simplified, systematic and fun! All students will experience the success critical in becoming an eager and confident reader.

Extraordinary Supplemental Reading Program

- Utilizes a patent-pending methodology
- Simplifies the hardest part of reading: correct vowel determination
- Applies super memory techniques:
 - Auditory, visual and kinesthetic (hands-on)
 - Left brain/right brain techniques to reach all learning styles
 - Association techniques for easy recall

Learning-to-Read process transformed into an enjoyable and rewarding experience

- 23 original songs teach the 18 distinct vowel sounds and their associated vowel rules.
- The Voweletics characters are memorable and help to form an association with each of the 18 vowel sounds.
- Three basic WHAT TO DO Rules teach the patterns vowels found in words, which determine the correct vowel sounds to use in words.
